

# Zirlux® Esthetic TR

## Transitional Layered Zirconia for All Indications

Zirlux Esthetics TR is a multi-layer zirconia that features transitions of shade, translucency and strength to mimic the natural esthetics and function of natural teeth

Suitable for all anterior and posterior indications

Available in all 16 classic VITA\* shades plus bleach shades

Transitional translucency mimics natural esthetics of incisal edge and makes it ideal for anterior restorations

Higher strength and opacity along the margin is ideal for posterior restorations

\*VITA is a registered trademark of Vita Zahnfabrik.
