VITA – perfect match.

VITA

Anne-Marie Wehrung, French Master Dental Technician reports on the latest materials in chairside CAD/CAM fabrication and reports on the latest VITA materials for use in digital dentistry covering hybrid and lithium-silicate ceramics. In a combination of lecture and hands-on sessions she offers advanced training in characterizing and on how to bring your restoration to the desired finish.

- VITA ENAMIC – The first dental hybrid ceramic with dual-network structure.

- VITA ENAMIC multiColor - The high esthetic solution for anterior and posterior restorations with integrated shade gradient from cervical to incisal area
- VITA ENAMIC STAINS – For more natural shade characterization
- VITABLOCS – The first CAD/CAM material - proven a million times over
- VITA SUPRINITY PC – 2nd generation glass ceramics
- VITA AKZENT Plus – Staining, masking and glazing

Speaker

Ms. Anne-Marie Wehrung, Master Dental Technician from France and one of VITA's regional sales managers is a well-known speaker on denture teeth and prosthetics. In this seminar she will share with you her vast experience as a technical trainer and advisor. Before being a lecturer and manager of the French VITA subsidiary, she has worked alongside Dr End, a renowned dentist, tooth developer and researcher who has brought about the concept of Physiодens denture teeth in close cooperation with the VITA company. Also, Anne-Marie has taken part in many live theatre symposiums where dentists and prosthetic technicians under Dr End's guidance fabricate dentures for patients.
