OPTIMA EndoActivE+

Ultrasonic Endo Activator Device BAE320

HENRY SCHEIN®

Ergonomic & comfortable design

Three Power Levels:

E1, E2, and E3, ranging from low to high power.

Four Time Modes:

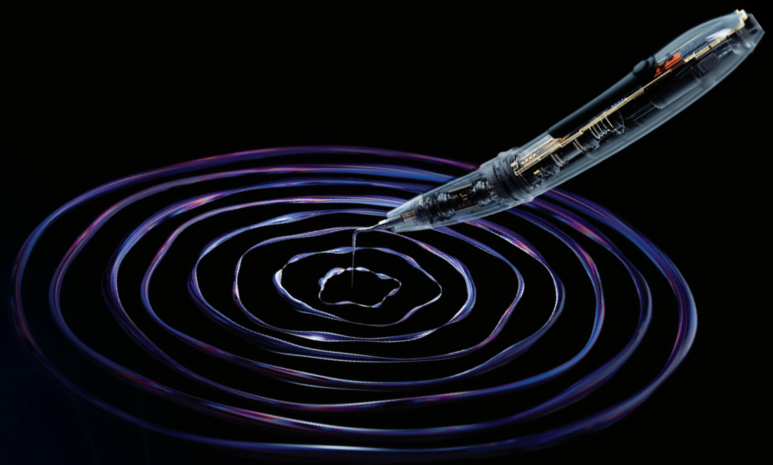

Allows the ultrasonic to run for 10 seconds, 15 seconds, 20 seconds, or 10 **minutes.**

10s 15s 20s 10 min

Two Modes:

1) Stand-by ready to use mode
2) Irrigation Mode.

Highly functional design
More efficient irrigation

Smart microcomputer control

EndoActivE+ emits high-frequency ultrasonic vibrations that act on the handpiece head, making the tip vibrate. This vibration safely and effectively enhances the endo irrigation used in endodontics.

Wireless Control
User-friendy operation

Wireless Use & Wireless Charging Base: no plugs or cords.

Magnetic suction contact connects the handpiece to the base.

Compact and light for easy irrigation.

Clear LCD screen
Easier observation

Clear, large, easy to read display allows for better observation of the unit's power mode & timing.

Ring Switch
Control button

Turns the unit on and off and allows the user to switch between power levels and time modes along with the main power button.

Facilitates the endodontic treatment by allowing access to different angles and different tooth positions.

Stable performance

Appropriate vibration amplitude ensures consistant stable readings

High quality, high efficiency titanium alloy tips with low vibration ensure a reliable irrigation.

Intelligent tracking

Fully automatic frequency tracking system
Automatically search for best working state

Compatible tips

BAE70 BAE71 BAE72 BAE96 BAE99

High configuration: B2- BAE96×2,B2-BAE99×2, B2-BAE70×2, B2-BAE71×10, B2-BAE72×10

Compatible tips:B2- BAE70, B2-BAE71, B2-BAE72, B2-BAE96,B2- BAE99

For canal irrigation after the root canal preparation

B2-BAE70: Endochuck, used for install BAE71, BAE72, for root canal cleaning or irrigation B2-BAE71, EN-BAE72: Polymer material without cutting ability

B2-BAE96: 20#, taper 2%, tip end length 21mm, Stainless steel

B2-BAE99: 25#, taper 2%, tip end length 18.5mm, Titanium alloy
