Oxy Rinse

Pre-procedural Mouth Rinse

HS-5723895

Product Profile

Composition	1% Hydrogen Peroxide Natural mint flavours Food approved colour E133
Uses	For use as a pre-procedural mouthrinse prior to the commencement of all patient treatment.
Advantages	<ul style="list-style-type: none">• Ready to use solution, no additional preparation required.• Oxy Rinse can be used before, during and after dental procedures to sanitise the oral cavity• Comes in mint flavour
Contraindications	Do not rinse with water after use. Rinsing with water will dilute the sanitising effect.
Precautions	Do not swallow
Clinical Procedure	Dispense approximately 20 mL of mouthrinse into a disposable cup. Ask patient to swish around mouth for 20 to 30 seconds then spit out. Not recommended for use in children under 6 years of age.
Safety Directions	Avoid contact with eyes.
First Aid	For advice, contact a Poisons Information Centre (13 11 26 for Australia; 0800 764 766 for New Zealand) or a doctor (at once). If swallowed, do NOT induce vomiting. If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by a Poisons Information Centre or a doctor, or for at least 15 minutes.
Presentations	HS-5723895 - 5L container (mint flavour)
Storage	Store in a cool and dark place. Store below 25 °C
Shelf Life	2 years from date of manufacture as indicated on pack.
