

ASP[®]
MICROSHIELD[®]

Our mission
is protecting
lives against
infection

FOR INFECTION PREVENTION MICROSHIELD[®] PROVIDES:

- A comprehensive range of hand hygiene solutions that increase customer confidence
- Effective & easy to use training programs and marketing material
- Customised business solutions for the needs of hospitals and healthcare stakeholders

Advanced Sterilization Products (ASP), division of Ethicon, Inc., a Johnson & Johnson company, has a long track record of designing and delivering innovative infection prevention solutions to help improve better patient safety outcomes.

MICROSHIELD[®] hand hygiene systems offer solutions to help minimise the risk of infections

Healthcare associated infections are major and growing issues in the quality and safety of health care in both hospital and community settings. Therefore, Johnson & Johnson Medical and ASP[®] sees infection prevention as an imperative initiative for all of our customers.

The Benefits of Stocking MICROSHIELD[®]

The ASP[®] MICROSHIELD[®] range is a comprehensive system of hand hygiene products providing various solutions to suit most hand hygiene situations in the hospitals. Our products have been carefully designed to deliver the highest product quality standards.

- Our products have been specifically manufactured for healthcare professionals.
- Each product contains the product description; reorder code, expiry date, lot number and clear instructions for use.
- New colour coded system to assist with easy product identification.

NEW MICROSIELD® PACKAGING

The new ASP® MICROSIELD® brand reinforces global brand consistency and defines who we are, and the value we provide to our customers. Our new visually distinctive and compelling package reinforces ASP® MICROSIELD®.

 · Dermatologist tested

500mL
 AUST R 76989
 REORDER 60088

Contains Ethanol 61.5% v/v

INDICATIONS:
 Suitable for use as a hygienic handrub in circumstances where a cleanser and water are not available. Kills bacteria without water. Designed for use between hand washes.

DIRECTIONS:
 Apply 5ml (at least a palmful) of gel on one hand. Spread all over surface of both hands and allow to dry without wiping. For soiled hands, wash with MICROSIELD™ Skincare Cleanser (or equivalent) and water before using.

FLAMMABLE. Keep away from fire or flame.
Store below 30°C.

SAFETY DIRECTIONS:
 In case of accidental ingestion contact a doctor or the Poisons Information Centre immediately. Avoid contact with eyes. In case of eye contact, immediately flush eyes with water. Discontinue use if skin irritation or redness develop. If skin or eye irritation persists for more than 72 hours, consult a doctor.

FOR EXTERNAL USE ONLY. DO NOT SWALLOW.

ALSO CONTAINS:
 Methyl hydroxybenzoate 0.011%
 Propyl hydroxybenzoate 0.003%
 Diazolidinyl urea 0.129%
 Benzalkonium chloride 0.100%
 Iodopropynyl butylcarbamate 0.001%
 Phenoxyethanol 0.500%

EFFECTIVE TRAINING & EDUCATIONAL SUPPORT

In addition to our products, we also provide training and education programs to help promote a culture of infection control and prevention.

Training and educational activities delivered by our professional team of Product Specialists and Clinical Educators include:

- Assistance with implementing the Hand Hygiene Moments in your healthcare facility
- A full hand hygiene clinical awareness campaign in liaison with Infection Prevention personnel at each facility
- Complete dispenser audits to assist in MICROSIELD® conversion, correct product placement and dispenser integrity
- Technical product training to assist with correct product use
- Raising hand hygiene awareness to help reduce risk of infections
- Provision of educational material such as “talking wall” posters, Hands First DVD/Video audio visual aids, product brochures, training modules and an informative website www.infectioncontrolsolutions.com

CUSTOMISED BUSINESS SOLUTIONS

Our technology, global distribution, and market position enable us to simplify the process of buying and operating infection prevention products and services every day, for thousands of medical facilities around the world. This in turn enables our customers to focus on what they do best - preventing infection and saving lives.

We will strive without reserve for the greatest possible reliability and quality in our products and to be recognised as a company of dedication, honesty, integrity and service.

Protecting Lives Against Infection
