PRODUCT FEATURES

Efficient Curing Space
Perfect curing chamber space for Dental Clinics and Labs with rigorous workflows.

Future-proof
Equipped with an SD card reader for updating material settings and post-curing times.

Accuracy and consistency
Preloaded optimal curing times database available at the turn of a dial and touch of a button.
Premium Performance
Smart UV-light source management system for maximized energy efficiency and the ideal light strength to prevent any deformation.

CURIE

→ CURIE is equipped with a sophisticated UV-light source management system that enables users to do more in less time and space.

→ Produce consistent results thanks to preloaded curing times and easily add new material settings with its built-in SD Card reader.

→ CURIE empowers you to deliver premium quality to your stakeholders at affordable prices and in a short time.

ACKURETTA

ACKURETTA

ACKURETTA ECOSYSTEM

Envision a future where dental clinics have a solution to 3D print end-product restorations chairside with lower cost, and higher efficiency. From hardware, software, finishing solutions, materials, to training resources and documentation, Ackuretta keeps everything in-house and up-to-date.

3D Printing Materials

A complete and versatile resin portfolio designed specifically for dental applications. CURO resins produce high-strength, high-performance prints that are durable and offer enhanced patient comfort.

Finishing Kit

Transform your 3D prints into safe, ready-to-use dental applications. The Ackuretta Finishing Kit effectively cleans and cures your prints to a professional grade finish.

Software

A proprietary 3D slicing application, Alpha 3D is the most intuitive, UX driven, dental-focused, 3D slicing software on the market today.

Alpha 3D

Other

All of this comes together to provide dental clinics and laboratories with a turnkey solution for digital dentistry
