

Safety Data Sheet for Chemical Indicators

according to Regulation (EC) No 1907/2006 (REACH) / Short Version

1. Identification of the product and of the company	
Product name	All GKE Chemical Indicators
Trade name	GKE Steri-Record® Chemical Indicator
Manufacturer's name	GKE-GmbH
Australian Distributor	GKE Australia Pty Ltd
24 hour Emergency telephone number	1300 889 201
Address	12/22 Lexington Drive, Bella Vista, NSW 2153
E-Mail	gke@gkeaustralia.com

2. Hazards identification	
No hazardous substance or mixture	This mixture does not contain any components in concentrations $\geq 0,1\%$, classified as either persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (VPvB).

3. Composition/information on ingredients	
Chemical characterization	Dried paint on paper
Description	This substance is a mixture which does not contain any components in concentrations $\geq 0,1\%$, classified as either persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (VPvB).

4. First aid measures	
Following Inhalation	Not applicable / not possible
Skin contact	No skin irritation is expected from accidental contact. In case of contact, flush with water. Seek medical attention if irritation develops.
Following Eye contact	No irritation is expected. In case of contact, flush with water. Seek medical attention if irritation develops.
Following Ingestion	Ingestion is not a likely route of exposure. No health hazards have been associated with accidental exposure to these products. Seek medical attention if irritation develops.

5. Fire fighting measures	
Extinguishing media	Carbon dioxide, dry chemical, foam, water, no special hazards from the mixture, no advice for fire-fighters

6. Accidental release measures	
n/a	

7. Handling and storage	
Handling	Do not drink, eat or smoke in contact with the indicator. It cannot be expected that the product releases chemicals with risk potential during normal use.
Storage	According to directions for use. The product should not be stored together with strong oxidants. No decomposition at normal storage and use.

8. Exposure controls / personal protection	
Control parameters	Does not contain substances with occupational exposure limit values
Exposure controls	Does not contain substances with occupational exposure limit values

9. Physical/chemical properties	
Boiling point, Vapour pressure, Vapour density, Solubility in water, Specific gravity, Percent volatile, Evaporation rate	n/a
Appearance and odour	Solid Paper labels with different indicators. Colour depending on the special product. No specific odour is associated with the indicator.

10. Stability and reactivity	
Reactivity	No hazardous reactions known with normal use.
Chemical stability	Stable under normal (labelled) conditions.
Possibility of hazardous reactions	Stable under stated storage conditions. No special hazards to mention.
Conditions to avoid	n/a
Incompatibility	n/a
Hazardous decomposition products	n/a

11. Toxicological information	
Information on toxicological effects	Not classified according to available information No toxicological problems known under normal working conditions

12. Ecological information	
Toxicity, Persistence and degradability, Bioaccumulative potential, Mobility in soil	n/a

Results of PBT and vPvB assessment	This mixture does not contain any components in concentrations $\geq 0,1\%$, classified as either persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (VPvB).
Other adverse effects	No data available

13. Disposal considerations

Waste treatment method	According to local waste disposal directives with normal waste.
------------------------	---

14. Transport information

UN no., UN Proper shipping name, Transport hazard class(es), Packing group,	Not classified as hazardous good
Environmental hazards, environmentally hazardous substance marking	No danger; No hazardous good according ADR/RID / IMDG-Code / ICAO-TI / IATA-DGR
Special precautions for user	No special precautions necessary
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable

15. Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture (EU- and national regulations)	n/a
Chemical safety assessment	A chemical safety assessment is not necessary for this mixture, if it is used as specified.
Medical Device according MDD/MDR	No medical device (MD) in the EU

16. Other information

The data mentioned in the present safety data sheet correspond to our latest knowledge and experience. The information is intended to give you advice about the safe handling of the product named in this safety data sheet for storage, processing, transport and disposal. The information can- not be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made -up material. Since conditions and manner of use are outside of our control, we make no warranties, expressed or implied, and assume no liability in connection with any use of this information.

This is a short version of our Safety Data Sheet. The full version is available from the manufacturer.
