#### CPD WITH GC

## Direct Anterior Aesthetics with Dr Richard Lee

THUR  
MAR 5

### PART 1: THE COMPOSITE PROGRAMME

The composite programme is a 2-day comprehensive course designed to enable you to produce outstanding, ultra realistic anterior composite restorations, predictably and confidently as well as exploring other forms of minimal intervention smile design and aesthetic enhancement. Through a combination of small group lectures and hands-on teaching, delegates will gain knowledge and skills that they can immediately utilise and take their composite artistry to the next level.

### PART 2: INJECTION MOULDING TECHNIQUE

The 1-day comprehensive Injection Moulding Programme has been carefully designed to give you the knowledge, confidence and skills to utilise this excellent and versatile treatment option. As well as lectures and case studies, delegates will be able to practice the injection moulding technique to create beautiful direct composite veneers on specifically designed typodonts. Participants will also learn about and practice incisal cut back and layering to take their restorations to the next level.
