HANDS-ON WORKSHOP

Practical Solutions for the Management of the Worn Dentition

DR GIDON FIXLER | DR RL HALILI-CASTILLO

REGISTER

Throughout this course, participants will learn the complexities of diagnosing and evaluating tooth wear, gaining knowledge into its aetiology and progression. We will focus on the various aspects of treatment planning, emphasising a patient-centered approach to achieve functional, aesthetic, and long-lasting results. Master the diagnosis of tooth wear, recognising contributing factors, understand preventative strategies for long-term stability, develop individualised treatment plans, acquire hands-on experience, balance functional restoration with aesthetic outcomes and develop strategies for long-term maintenance.

Melbourne VIC 9:00AM — 5:00PM 13 CPD
