

Universal Excellence Restorative Offers

VALID FROM 13 JULY TO 30 SEPT 2026

CLEARFIL Universal Bond Quick 2

Fast application. Strong Adhesion One Simple Step. Zero-Wait Adhesive

CLEARFIL™ Universal Bond Quick 2 is a next-generation single-bottle universal adhesive powered by Urethane Tetramethacrylate (UTM) and Kuraray's proven MDP monomer. It enables zero-wait applications with a uniform bond layer and reliable adhesion across all etching techniques. Excellent mechanical strength and consistent performance, in one easy bottle.

T&Cs: Contact Kuraray Noritake Product Specialist to claim your FREE CLEARFIL™ Universal Bond Quick 2 Trial 1ml bottle. Only while stocks last.

PANAVIA SA Cement Universal

Strong bonds. Zero Primer. Total Simplicity.

PANAVIA™ SA Cement Universal is a dual-cure, self-adhesive resin cement that bonds to virtually any restorative material - no separate primer required. Powered by proven MDP and advanced LCSi monomers, it delivers durable chemical adhesion to enamel, dentin, zirconia, lithium disilicate, metal alloys, and composites. With easy dispensing, room-temperature storage, and simple cleanup, it streamlines procedures for efficient, predictable outcomes in crowns, bridges, posts, inlays/onlays, and implant restorations.

T&Cs: Single syringe. Enter Promo Code **PANAVIA** to claim bonus products.

KATANA Cleaner

Universal Cleaning. Clean smarter. Bond stronger.

Intraoral & Extraoral KATANA™ Cleaner is an advanced MDP-salt based cleaner that safely removes saliva, blood, and protein contaminants that weaken adhesive performance. With a neutral pH (4.5), it is gentle enough for direct intraoral use while delivering rapid, highly effective cleaning across a wide range of materials - including zirconia, lithium disilicate, composites, metals, and tooth structure. In just 10 seconds, it restores optimal bonding conditions for strong, predictable retention.
