Gordon J. Christensen
DDS, MSD, PhD

Gordon J. Christensen is Founder and Director of Practical Clinical Courses (PCC), Chief Executive Officer of Clinicians Report Foundation (CR), and a Practicing Prosthodontist in Provo, Utah.

Gordon and Dr. Rella Christensen are co-founders of the non-profit CLINICIANS REPORT FOUNDATION (previously named CRA), which Rella directed for many years. Since 1976, they have conducted research in all areas of dentistry and published the findings to the profession in the well-known CRA Newsletter now called CLINICIANS REPORT.

Gordon’s degrees include: DDS, University of Southern California; MSD, University of Washington; PhD, University of Denver; and two honorary doctorates.

Early in his career, Gordon helped initiate the University of Kentucky and University of Colorado dental schools and taught at the University of Washington.

Currently, he is an adjunct professor at the University of Utah, School of Dentistry. Gordon has presented thousands of hours of continuing education globally, made hundreds of educational videos used throughout the world, and published widely.

Gordon and Rella’s sons are both dentists. William is a prosthodontist, and Michael is a general dentist. Their daughter, Carlene, is a teacher. He is a member of numerous professional organizations.

Gordon is a Diplomate of the American Board of Prosthodontics, a Fellow and Diplomate in the International Congress of Oral Implantologists, a Fellow in the Academy of Osseointegration, American College of Dentists, International College of Dentists, American College of Prosthodontists, Academy of General Dentistry (Hon), Royal College of Surgeons of England, and an Associate Fellow in the American Academy of Implant Dentistry.

Some of his other memberships include: American Academy of Esthetic Dentistry; International Association of Dental Research; Academy of LDS Dentists; American Academy of Restorative Dentistry; American Academy of Fixed Prosthodontics; Academy of Operative Dentistry; and International College of Prosthodontists.

**DENTISTRY STATE OF THE ART 2015**

**VENUES**

**Melbourne**
- 29 May 2015
- Sofitel Melbourne On Collins 25 Collins Street
- Melbourne, VIC 3000

**Auckland**
- 2 June 2015
- Heritage Auckland Hotel, 35 Hobson Street
- Auckland, New Zealand

**MORNING SESSION**

This presentation describes the current availability of numerous technological, conceptual, and material advances in dentistry and how to implement them most adequately into practice. The topics emphasize improving patient service and, as a result, improving office production. The following and other topics are included:

- A comparison of the three ways to make crowns and fixed prostheses
- CAD/CAM in office and in dental laboratories. Which will dominate?
- A comparison of radiographic sensors
- Caries detection by various means
- Patient education for optimum treatment plan acceptance. Intraoral cameras, optimum use of monitors, video presentations
- Cone beam radiography, how and when to use it
- Electric handpieces, the best devices and most effective techniques
- Scalers, are they improving?
- And numerous other topics as asked by the audience

**AFTERNOON SESSION**

**Ongoing & Future Paradigm Changes in the Profession**

This presentation discusses the predictable changes in the profession that are identifiable at this time. Gordon presents the information with a local panel of dentists contributing assistance in answering pre-determined questions from the audience. The following and other topics concerning techniques, concepts, materials and devices are included:

- Minimally invasive dentistry in restorative dentistry, periodontics, implant dentistry and other areas
- Resin-based composite vs. amalgam
- Reduced cost off-shore laboratory fixed prosthodontics
- Changing from "need" to "want" dentistry
- Endodontic treatment improvements
- Implant dentistry, a comparison of materials and techniques
- "Plastic" orthodontics
- Digital impressions
- Increase in adult restorative dentistry
- New preventive concepts
- And other questions from the audience

**ON THE COMPLETION OF THESE PRESENTATIONS PARTICIPANTS SHOULD BE ABLE TO:**

- Discuss the current state-of-the-art in many areas of dentistry
- Decide which of the techniques, concepts, materials and devices they want to incorporate into their practices or how to improve their current usage
- Define the upcoming paradigm changes in dentistry
- Decide how to incorporate the desired changes into their practices
