

Immediate Bio-Functional and Advanced Aesthetic Restoration Hands-On Workshop

Presented by Dr Rouel Vergara

Treatment approach in achieving aesthetic result can sometimes result to a less conservative method. With minimally-invasive aesthetic dentistry in mind, dental practitioners now can provide a simple and effective solution in achieving aesthetics and function using an innovative prefabricated laser sintered nano-hybrid composite veneers or occlusal enamel shells.

Course Outline

- Application and indication of Edelweiss Veneers and OcclusionVD
- Pros and cons of direct, prefabricated and indirect ceramic veneers
- Edelweiss system presentation
- Treatment concept and step by step
- Research data about the Edelweiss system

Hands-On

- Shade selection
- Preparation of tooth and adjustment of Edelweiss Veneers and OcclusionVDs
- Surface and internal characterization, specific bonding technique
- Size selection Edelweiss Veneers and OcclusionVDs
- Finishing of proximal and cervical area

Dr Rouel Vergara DMD, Gen.Dent.Cert.

Dr Rouel Vergara obtained his Doctor of Dental Medicine degree from University of the East and attained his General Dentist Certificate from the Australian Dental Council in Melbourne. Dr Vergara gained his Certificate in Training and Assessment from Macquarie College in Sydney. His fields of interest in dentistry are endodontics, prosthodontics, digital dentistry and minimally invasive dentistry. Rouel is the principal dentist of New Leaf Dentists based in Central Coast, NSW. His primary focus is providing patient-centred dental care.
