Managing Metal-Ceramic and All-Ceramic Restorations

Tooth preparations, impressions, provisionalisation cementation/bonding

Presented by Professor Vasili Chronopoulos (USA)

The clinical procedure of preparing teeth for fixed restorations will be analysed. A step-by-step protocol for tooth preparations, retraction, impression, registration, temporisation and cementation will be presented utilising presentation of clinical cases and videos. The procedure will be repeated from the participants in simulation models during the practical part of the workshop. Following the exercise an interactive discussion will allow the participants to fully understand and absorb the more delicate procedures like bonding to tooth structure.

Course Topics
- Types of tooth preparations
- Selection of rotary instruments for tooth preparations
- Metal-ceramic vs all-ceramic restorations
- Definite margin preparations, ideal finish line.
- Soft tissue management
- Impression procedures – materials and techniques
- Provisionalisation – materials and techniques
- Cementation procedures – materials and techniques
- Update on bonding procedures

Learning Objectives
- Apply contemporary preparations design to everyday clinical practice
- Recognise and evaluate clinical conditions and safely decide on the type of restoration (eg metal vs. all ceramic) and relevant preparation design
- Apply the impression technique required for the relevant clinical condition
- Analyse complex clinical situations and apply the required cementation procedures.

About the presenter

Professor Vasili Chronopoulos is a Prosthodontist from Marquette University, USA with a MS and a PhD in Dental Biomaterials. He is the Professor of Restorative Dentistry at Griffith University, School of Dentistry and Oral Health, Gold Coast; an Honorary Professor in the Faculty of Dentistry in the University of Hong Kong, China; an Assistant Professor in the Department of Prosthodontics in the School of Dentistry, University of Athens, Greece; an Assistant Clinical Professor in the Department of Restorative Sciences and Graduate Prosthodontics at Baylor College of Dentistry in Dallas, Texas, USA; and an adjunct instructor in the Department of Periodontics, University of Louisville in Kentucky, USA.

He has authored and co-authored over 50 publications, chapters in Prosthodontic textbooks, a Clinical Guide on Contemporary Restorative Procedures and a text book on Dental Materials.

He is a member of numerous scientific societies. Dr Chronopoulos is a clinician with over 20 years of experience in Prosthetic and Restorative Dentistry. The majority of his publications are on clinical topics and clinical related research. He is internationally known as a master clinician focusing on contemporary treatment planning. He lectures internationally on Esthetic Dentistry, Implants, Prosthodontics and Dental Materials. He worked clinically in the United States and in Europe and is the sole owner of a multidisciplinary private practice limited to Prosthodontics and Implant Dentistry in Athens Greece. He is a registered practitioner in Europe and in Australia.
Registration Form
Managing Metal-Ceramic and All-Ceramic Restorations

Photocopy and complete this form for each registrant, telephone registrations are not accepted.

☐ Register me for Managing Metal-Ceramic and All-Ceramic Restorations on Thursday, 22 October 2015.
   ADA Member $800  ☐ Non Member $960

☐ I am a member of my ADA state branch or equivalent international organisation.
   Member Number ______________________________________________________

Please forward receipt by ☐ email (please confirm email address below) or ☐ post

Please use block letters when filling in your details
