

CPD LECTURE

Periodontal & Implant Maintenance - New Horizons with GUIDED BIOFILM THERAPY

Calling all Dentists, Specialists, Hygienists & Oral Health Therapists!

- Which periodontal and implant maintenance techniques are best?
- What evidence-based research is available?
- How do we know which is the best protocol for the prevention and treatment of peri-implantitis?
- With so many options - is there a way to know which one is right?

If you want these questions answered and more, register now for: Periodontal & Implant Maintenance - New Horizons with Guided Biofilm Therapy CPD Lecture.

Led by Maintenance guru, Tabitha Acret (BOH), you'll discover Guided Biofilm Therapy [GBT] & learn why it's the gold standard of prevention & minimally invasive dentistry.

GBT is a game changer in the modern dental practice for preserving tooth structures, increasing profitability, improving clinical outcomes and increasing patient retention and compliance - register now!

Tabitha Acret is a qualified dental hygienist and has been part of the dental industry for 20 years. She has worked as a dental nurse, dental receptionist and practice manager. She holds a BOH from Newcastle University and is currently undertaking further studies in Sleep Medicine. Tabitha is registered with the Australian Dental board and was the previous chair for the NSW Dental Hygienist Association Australia Ltd and is the current NT Director for the DHAA Ltd. She is a regular at CPD events with a passion for learning and making a difference in her patients' lives. Tabitha currently works 3 days a week in private practice, was a previous clinical educator one day a week at Sydney University for 2nd year BOH students until her recent move to the NT in Australia to help set up an implant maintenance program in private practice and is an educator with the Swiss Dental Academy.
