Edelweiss Lecture & Workshop

edelweiss
COMPOSITE VENEER SYSTEM BY ULTRADENT PRODUCTS, INC

The first and only **laser-sintered** veneer
Unsurpassed finish, scratch resistance, and durability

Speaker: DR. STEPHAN LAMPL, BChD, MDT, BBA

Stephan Lampl, inventor and founder of Edelweiss Dentistry, received his license in dental technique (CDT) at the Dental Technology School in Vienna, Austria, in 1989. He received his master's degree from the Académie d'Art Dentaire in Geneva, Switzerland, in 1991.

From there, Stephan headed to the University of the Western Cape in Cape Town, South Africa, to complete his bachelor of dental surgery (BDS) degree in 1996. In 2001 he became a master clinician in restorative dentistry at Prof. Didier Dietschi's Geneva Smile Center. And in 2009, he became a master clinician in aesthetic dentistry at the UCLA School of Dentistry in Los Angeles, California.

Course Objectives

- Practise shaping and contouring composite veneers in a personable, hands-on environment (each participant will be given 2 veneers for practice)
- Learn to identify and fulfill patient's needs and boost aesthetic treatment in your office
- Walk through the process of seating composite veneers using conservative techniques that keep the maximum amount of tooth structure intact
- Understand the fundamentals of shade and veneer shade selection
- Gain an in-depth understanding of why advanced laser sintering technology is important

Course Details

At the hands on, you'll get guided hands-on experience with the step-by-step procedure used to properly seat composite veneers. You can also take advantage of networking opportunities with peers. We will have a LIVE PATIENT in Sydney for those who wish to see the product in action (see back for details)
