

Practical Protocol for Saving Teeth & Implants

A team approach

UP TO
6 CPD
HOURS

The SWISS DENTAL ACADEMY is one of the key pacesetters in dental prophylaxis and periodontal disease management training. Based on the latest scientific knowledge, the theory and practical courses are taught in terms of practice-oriented requirements. Under the guidance of experienced trainers, you'll learn about Guided Biofilm Therapy and practise your treatment expertise by using the most modern air-polishing and ultrasonic devices. This is a unique opportunity for dentists and hygienists in the dental practice today!

Ask how to become an accredited Guided Biofilm Therapy Clinic after the course.

REGISTRATION ENQUIRIES: 1300 302 421 | www.henryschein.com.au/education

Are you ready to shift your paradigms to include Guided Biofilm Therapy as your approach for preventive and periodontal maintenance treatment? If so, this CPD is for you!

Lecture

Aimed at the whole dental team to discuss the most modern, gentle and cost effective techniques available for periodontal and implant maintenance. Participants will discover Guided Biofilm Therapy and learn why it integrates with the modern concept of preventive and minimally invasive dentistry. Key topics include: how to make periodontal treatments more effective and more enjoyable to you, your patients and dental practice.

Periodontal Disease

- Understanding biofilm and its effects
- The 8 Steps of Guided Biofilm Therapy for professional biofilm management
- Effectiveness of GBT compared to conventional methods for preventative therapy, maintenance and periodontal treatment
- Current periodontal disease classifications and understanding CAL
- AIRFLOW® - indications and benefits

Implant Disease

- How to best care for implants
- Recommended routine maintenance protocol
- Identifying mucositis and peri Implantitis
- Treating non-surgical mucositis and peri Implantitis with GBT/AIRFLOW

Hands-on Workshop (Clinician-on-Clinician)

This workshop is the ideal platform for dental professionals wanting to perfect themselves. Participants will have an opportunity to follow the complete Guided Biofilm Therapy protocol step-by-step first on simulation models and then clinically on one another in the clinic chair. Dental professionals will learn to maximize efficiency and patient comfort.

Learn how to

- Correctly utilise supra and sub gingival air polishing devices to eliminate biofilm prior to hard deposit removal
- Correctly apply ultrasonic instrumentation for optimal hard deposit removal

Specific Conditions upon Registration

Full Day Participants must:

- Be willing to practice on each other
- Hold a current registration with the Dental Board of Australia and be willing to show certificate if requested
- Provide Professional Indemnity Insurance Certificate including Civil Liability

COST:

**\$100 for Lecture Only | 3.5 CPD Hours
\$300 for Full Day (Limited to 12 participants) | 6 CPD Hours**

Dr Meredith Owen

BSc (Hons), BDent (Hons), DClinDent (Perio) Candidate

Dr Meredith Owen received an honours degree in BioMedical Science before studying dentistry at the University of Sydney. She graduated with honours and was awarded the Henry Bruce Maxwell prize for restorative dentistry, an academic merit scholarship, and was a Convocation Medal finalist.

During her student days Meredith received an Oral Health Scholarship for her volunteer work in Laos, was elected Student President, and helped form the Australian Dental Students Association.

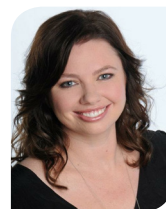

After graduation, Meredith served as President of DASUS (Dental Alumni Society of the University of Sydney) and was a member of the Recent Graduates Committee - a subgroup of the ADA NSW (Australian Dental Association New South Wales).

Meredith is a clinical educator and was a mentor for the University of Sydney - teaching dental students at both the Sydney Dental Hospital and the Westmead Centre for Oral Health.

Tabitha Acret

Tabitha Acret is a qualified dental hygienist and has been part of the dental industry for 20 years. She worked initially as a dental nurse, dental receptionist and practice manager before completing her BOH from Newcastle University. Tabitha is a registered Dental Hygienist with APHRA, is the current Chair for the Dental Hygienist Association of Australia - NSW. She is committed to frequently extending her continuing education and is integral in delivering quality CE to NSW and the National Dental Hygienist community.
