

**invisalign® go**

## Invisalign® Go training course.

**Presented by:  
Dr Bharat Agrawal, Dr Jason Ng  
Dr Steven Casci & Dr Jack Milgate**

**A teeth-straightening treatment designed especially for dentists.**

Attendance at the Invisalign Go training programme is designed to help you develop new skills that will enable you to extend your practice offering to treatment of minor aesthetic cases.

The programme consists of in-person training, with live hands-on sessions. The live sessions offer hands-on tips and techniques for Invisalign Go interproximal reduction and attachments.

The content focuses purely on the use of Invisalign Go in the treatment of patients with minor cosmetic concerns. No orthodontic theory will be presented.

## Dr Bharat Agrawal

Dr Bharat Agrawal has completed his Masters in Aesthetic Dentistry with Distinction (MSc AesDent) through King's College in London. His final year dissertation looked at the effectiveness and longevity of take home dentist prescribed tray bleaching techniques combined with a clinical audit.

He has presented on tooth whitening alongside minimally invasive aesthetic Dentistry in Australia and in the UK. He

has had a case report selected for publication by Invisalign Australia as a clinical white paper which looked at combination aesthetic treatments including alignment, whitening, additive bonding and dentofacial aesthetic corrections using injectables.

He has successfully utilised the Invisalign protocol and digital workflow using the iTero Elements scanner to achieve significant smile improvements without the removal of valuable hard tissue. He is actively involved in mentoring and teaching recent graduates and is passionate about the paradigm shift towards minimally invasive approaches to comprehensive smile make overs.

## Dr Jason Ng

Dr. Jason Ng completed his degree in dentistry in 1989 at Otago University, New Zealand and has been practicing dentistry for over 25 years.

Having extensively travelled and worked overseas in Asia and Europe, Dr. Ng returned to New Zealand in 1994 to become a partner at Titirangi Dental Centre. Since then he has developed a busy family practice with an emphasis on providing quality long term dental solutions with the

upmost care and respect for his patients. His passions are in cosmetic, long term restorative solutions and orthodontics. These three branches of dentistry complement and integrate well together in providing healthy, functional and beautiful smiles for his patients.

From 2011-2018 Dr Ng was recognised as one of New Zealand's top Invisalign Providers and awarded the Platinum and Platinum Elite Invisalign Provider Status, he is also one of the top Invisalign teen providers in New Zealand. Dr Ng lectures regularly as an Invisalign clinical presenter. He has also published a number of Clinical White papers about Invisalign treatment. Dr Ng has currently over 200 cases of Invisalign in treatment.

He currently is a Trainer and Clinical Speaker for Invisalign, teaching Invisalign clinical techniques to other dentists. In 2018 Dr Ng presented over 18 International lectures including being a key speaker in the Asia Pacific Summit in Singapore. Dr Ng is also a current member on the Align Technology (Invisalign and iTero) GP Advisory Board.

## Dr Jack Milgate

Dr Jack Milgate is originally from Northern Victoria – Echuca/Moama, where he grew up before moving to Bendigo to study at Latrobe University. Jack spent 2 years working and completing his Masters program in public dental health clinics throughout regional Victoria.

He has been part of the team at Hobsons Bay Dental in Melbourne, since December 2012. Jack enjoys all aspects of general dentistry with particular interests in providing

thorough diagnosis, assessment and treatment planning, as well as improving smiles with aesthetic treatments including Invisalign clear orthodontics. Outside of dentistry Jack enjoys tennis, travelling and spending his time getting his hands dirty in the shed.

## Dr Steven Casci

Steven graduated from the University of Otago in 2001 with a Bachelor of Dental Surgery. After graduation, Steven worked for 2 years as a House Officer at Auckland Hospital before heading in to private practice where he has worked for over 15 years, both in New Zealand and the United Kingdom.

Prior to his return to New Zealand, Steven spent seven years working in an exclusive private practice in London's

Harley Street providing an extensive range of cosmetic and restorative dentistry.

In 2018, Steven was awarded Diamond status with Invisalign Australia and New Zealand in recognition of the large number of patients he had successfully treated, and to date he has completed over 330 cases. In addition to short-term orthodontics, Steven has improved the smile of hundreds of clients through a combination of whitening, bonding and veneers. He is focused on achieving great results while taking a conservative approach that's as minimally invasive as possible.

When not in clinic, Steven attends a wide range of conferences and training programs internationally and while working in the UK was awarded a certificate in aesthetic and cosmetic dentistry.
