Periodontal & Implant Maintenance – New Horizons with Guided Biofilm Therapy

with A. Prof Axel Spahr

Which periodontal and implant maintenance techniques are the best? How do we know which is the best protocol for the prevention and treatment of peri-implantitis? With so many options – is there a way to know which one is right? If you want these questions answered and more, these CPD courses are for you!

SYDNEY – 2019

BASIC COURSE – 13 April & 7 September
(Henry Schein Sydney)

ADVANCED COURSE – 1 June & 30 November
(Sydney Dental Hospital)

Attend both courses and save more to master perio & implant maintenance

Periodontal & Implant Maintenance – New Horizons with Guided Biofilm Therapy

Basic & Advanced CPD Courses

BASIC COURSE (theory + bonus practical)

LECTURE

Aimed at the whole dental team to discuss the most modern, comfortable and cost effective techniques available for periodontal and implant maintenance. The course will reveal answers to the challenges of providing safe and effective implant maintenance and peri-implantitis treatment. Participants will discover Guided Biofilm Therapy [GBT] and learn why it integrates with the modern concept of preventive and minimally invasive dentistry.

Periodontal Disease

- ➔ Introduction to the new Classification of Periodontal Disease
- ➔ Effectiveness of Guided Biofilm Therapy compared to conventional methods for preventative therapy, periodontal treatment and maintenance
- ➔ The clinical application of AIRFLOW and PERIOFLOW

Implant Disease

- ➔ How to best care for implants to maximise longevity and minimise risks for peri-implantitis
- ➔ Detecting and diagnosing mucositis and peri Implantitis
- ➔ Recommended implant maintenance protocol
- ➔ Non-surgical treatment of mucositis and peri Implantitis with GBT/AIRFLOW

INCLUDES BONUS HANDS-ON SESSION WITH PERIO MODELS

The aim of the hands-on session is to provide a practical overview of modern biofilm management and provides the opportunity for participants to practice Guided Biofilm Therapy on periodontitis models.

DATES:

Saturday, 13 April 2019
Saturday, 7 September 2019

TIME: 9:00 – 1:30pm

LOCATION:

Henry Schein
Building 3 Level 6/189 O’Riordan St, Mascot NSW 2020

SYDNEY DENTAL HOSPITAL SPECIFIC CONDITIONS UPON REGISTRATION

- > Be willing to undergo a National Criminal Record Check
- > Provide 100 Points of Identification to do so
- > Provide evidence of protection against specified infectious diseases
- > Must be registered with Dental Board of Australia
- > Must be covered by professional indemnity insurance including civil liability cover for all aspects of practice

ADVANCED COURSE (hands-on masterclass)

This interactive hands-on course featuring live periodontal patients will demonstrate how to successfully incorporate Guided Biofilm Therapy into your practice. The course follows on from the BASIC course and ensures that participants have advanced knowledge of periodontal and implant maintenance techniques for optimal treatment outcomes.

The Hands-on Masterclass is limited to the first 15 participants to register and is only available to clinicians who have attended the BASIC course or a previous SDA course and are looking to advance their knowledge.

DATES:

Saturday, 1 June 2019
Saturday, 30 November 2019

TIME: 9:00 – 1:30pm

LOCATION:

Sydney Dental Hospital
2 Chalmers St, Surry Hills NSW 2010

**Associate Professor Axel Spahr
(DR. MED. DENT. HABIL)**

Axel Spahr is Head of Periodontics at the Sydney Dental Hospital and Head of the Discipline of Periodontics at the University of Sydney

With training in microbiology, molecular biology, extensive experience in basic science research, animal research and clinical research, Axel’s research interests include periodontal

regeneration, bone regeneration, periodontitis and systemic diseases as well as antimicrobial therapy. He has lead large externally funded research projects and is the author of numerous international peer-reviewed publications. A board registered periodontal specialist, Axel is the Past President of the Periodontal Research Group of the International Association of Dental Research (IADR) and works in private specialist practice (Park St Perio) in Sydney.
