CONFERENCE OVERVIEW

DAY 1 – LECTURE

Venue: Doltone House – Australian Technology Park

7
CPD POINTS

This is one of the first congresses of its kind in the world to emphasize the importance of high-quality prophylaxis. The aim of the lectures, presented by international experts in their field, is to discuss biofilm management, the main causes of biofilm and the clinically effective ways to remove it.

Guest speakers Prof Andrea Mombelli, A/Prof Axel Spahr and Tabitha Acret will share their personal opinion on best practices including the challenges of clinical cases with a particular emphasis on periodontal and implant maintenance.

Guests will be introduced to the new game changer in prophylaxis – ‘GBT’ by Dr Neha Dixit who will discuss how the idea came to light and present the science behind ‘GBT’.

Topics to be discussed include:

- Treating non-surgical mucocytosis and peri-implantitis with GBT/AIRFLOW®
- Recommended routine maintenance protocols for periodontal/peri-implant patients
- Minimal intervention theories compared to conventional methods
- What is GBT? How does GBT compare to minimal intervention theories
- Implementation of GBT in clinical practice and the role of the dentist and hygienist

DAY 2 – LIVE PATIENT HANDS-ON MASTERCLASSES

Venue: Sydney Dental Hospital (Sydney Dental Hospital, Level 4)

3
CPD POINTS

The half-day hands-on Masterclasses are an ideal platform for clinicians wanting to perfect themselves. Clinicians will have an opportunity to follow the complete GBT protocol step-by-step first on simulation models and then clinically on live periodontal patients.

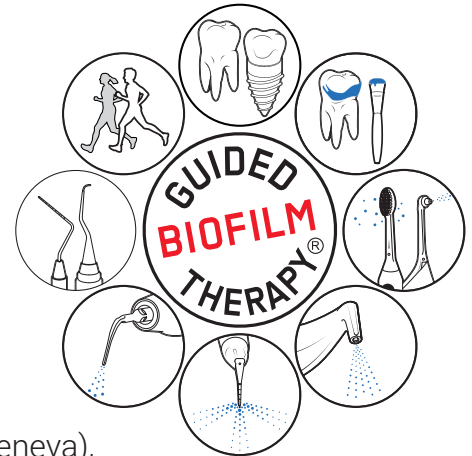

Participation is limited to a maximum of 20 dental professionals in each session who have attended Day 1.

WHY ATTEND GBT CONGRESS?

5 GAME – CHANGING REASONS

why GBT Congress is a must-attend event for any dental professional...

1

INSIGHTFUL PRESENTATIONS WITH 4 SEASONED SPEAKERS

including Professor Andrea Mombelli (Professor and Director of Periodontology at the University of Geneva), who are going to inspire attendees with their vision for the future of dental maintenance and oral hygiene.

2

INSIGHTS ABOUT ACTIONABLE TACTICS AND TOOLS FOR YOUR DENTAL PRACTICE

Attending GBT Congress provides a rich learning experience to all attendees, who can learn something new and implement it to improve recalls and maximise revenue in the practice.

3

OPPORTUNITY TO MEET OTHER LIKE-MINDED MOTIVATED DENTAL PROFESSIONALS

Meet like-minded dental professionals who'll be as excited and geared up about the GBT movement as you are. Get new perspectives about how to improve patient comfort and grow your practice.

4

INSPIRATION TO PERFORM AT YOUR BEST

The primary objective of organising GBT Congress is not only to give dental professionals in attendance views about the future of dental maintenance and oral hygiene but also to inspire them to improve their performance reducing arm strain, tension, back pain and sore wrists.

5

ENRICHING KEYNOTE PRESENTATIONS

GBT Congress is unlike regular dental events, in the sense that it gives an opportunity for all attendees to gain some new insights that go beyond traditional methods of prophylaxis. Attendees will get inspired by the stories of these leading speakers and learn something new from every presentation as they provide their view on the future of dental maintenance and oral hygiene.

These are some of the major reasons why every dental professional must attend GBT Congress

SEE YOU THERE!
