

Periodontal & Implant Maintenance – New Horizons with Guided Biofilm Therapy

Basic & Advanced CPD Courses

BASIC COURSE (theory & hands-on)

Speaker: Tabitha Acret (BOH)

LECTURE

Aimed at the whole dental team to discuss the most modern, comfortable and cost effective techniques available for periodontal and implant maintenance. The course will reveal answers to the challenges of providing safe and effective maintenance. Participants will discover Guided Biofilm Therapy [GBT] and learn why it integrates with the modern concept of preventive and minimally invasive dentistry.

Periodontal Disease

- ➔ Introduction to the new Classification of Periodontal Disease
- ➔ Effectiveness of Guided Biofilm Therapy compared to conventional methods for preventative therapy, periodontal treatment and maintenance
- ➔ The clinical application of AIRFLOW, PERIOFLOW & PIEZON technologies

Implant Disease

- ➔ How to best care for implants to maximise longevity and minimise risks for peri-implantitis
- ➔ Detecting and diagnosing mucositis and peri Implantitis
- ➔ Recommended implant maintenance protocol
- ➔ Non-surgical treatment of mucositis and peri Implantitis with GBT/AIRFLOW

INCLUDES HANDS-ON SESSION WITH PERIO MODELS

The aim of the hands-on session is to provide a practical overview of modern biofilm management and provides the opportunity for participants to practice Guided Biofilm Therapy on periodontitis models.

DATE:

Saturday, 22 February 2020

TIME:

8:30am – 12:30pm (3.5 CPD) – morning session

1:30pm – 5:30pm (3.5 CPD) – afternoon session

LOCATION:

Quality Hotel Carlton

441 Royal Parade, Parkville VIC 3052

Tabitha Acret

Tabitha has 22 years' experience in the dental industry. She graduated from Newcastle University in 2008 with a Bachelor of Oral Health and has since worked in private practice and as dental educator at Sydney University.

Tabitha has a passion for community dentistry, preventative care and implant maintenance. She has volunteered clinically both within Australia and overseas and volunteers on a regular basis

for the Dental Hygienists Association of Australia (DHAA). Implant maintenance is her passion and Tabitha has travelled extensively overseas to obtain more knowledge on the subject including the Malo Clinic in Portugal. She is currently undertaking her Implant Maintenance certification in Washington DC, USA.

ADVANCED COURSE (clinician-on-clinician masterclass)

Speaker: Dr Devika Iyer

This workshop is the ideal platform for dental professionals wanting to perfect themselves. Participants will have an opportunity to follow the complete Guided Biofilm Therapy protocol step-by-step first on simulation models then clinically on one another in the clinic chair. Dental Professionals will learn to maximize efficiency and patient comfort.

Learn how to:

- ➔ Correctly utilize supra and sub gingival air polishing devices to eliminate biofilm prior to hard deposit removal
- ➔ Correctly apply ultrasonic instrumentation for optimal hard deposit removal

The ADVANCED course is limited to the first 12 participants to register and is only available to clinicians who have attended the BASIC course or a previous SDA course and are looking to advance their knowledge.

DATE:

Saturday, 18 April 2020

TIME: 9:00 – 1:30pm (3.5 CPD)

LOCATION:

Grandstand Dental Care

Waverley Park Stadium, 4/2 Stadium Cct

Mulgrave VIC 3170

*Please see back page for specific conditions concerning
Advanced course registration

Dr Devika Iyer

Dr Devika Iyer has a continued passion for surgery and periodontics. She graduated from the University of Melbourne in 1992 and commenced her practice Grandstand Dental Care in 1998 with a strong periodontal focus. Dr Iyer has been surgically placing and restoring implants for many years after receiving formal training in Implant Dentistry with the Australian Society of Implant Dentistry in 2005, her Masters in Oral Implantology

from Frankfurt University and a Masters in Periodontics from the International Medical College Germany. She is also a Diplomate at the International Congress of Oral Implantologists (DICOI, USA).

Dr Iyer has a real passion for working with patients to achieve the best possible comprehensive outcomes. She offers a range of solutions to help them from full arch dental rehabilitation using 4 to 6 dental implants, sinus lifting procedures, complex cosmetic and periodontal procedures, various non-surgical and surgical procedures including periodontal grafting and the use of Platelet rich fibrin in the use of periodontal regeneration.
