

Periodontal & Implant Maintenance – New Horizons with Guided Biofilm Therapy

Basic & Advanced CPD Courses

BASIC COURSE (Theory & hands-on)

Speaker: Tabitha Acret (BOH)

LECTURE

Aimed at the whole dental team to discuss the most modern, comfortable and cost effective techniques available for periodontal and implant maintenance. The course will reveal answers to the challenges of providing safe and effective maintenance. Participants will discover Guided Biofilm Therapy [GBT] and learn why it integrates with the modern concept of preventive and minimally invasive dentistry.

Periodontal Disease

- Introduction to the new Classification of Periodontal Disease
- Effectiveness of Guided Biofilm Therapy compared to conventional methods for preventative therapy, periodontal treatment and maintenance
- The clinical application of AIRFLOW, PERIOFLOW & PIEZON technologies

Implant Disease

- How to best care for implants to maximise longevity and minimise risks for peri-implantitis
- Detecting and diagnosing mucositis and peri Implantitis
- Recommended implant maintenance protocol
- Non-surgical treatment of mucositis and peri Implantitis with GBT/AIRFLOW

INCLUDES HANDS-ON SESSION WITH PERIO MODELS

The aim of the hands-on session is to provide a practical overview of modern biofilm management and provides the opportunity for participants to practice Guided Biofilm Therapy on periodontitis models.

DATE:

Saturday, 4 April 2020

TIME:

8:30am – 12:30pm (3.5 CPD) – morning session

1:30pm – 5:30pm (3.5 CPD) – afternoon session

LOCATION:

Henry Schein

Ground Floor/8 Gardner Cl, Milton QLD 4064

Tabitha Acret

Tabitha has 22 years' experience in the dental industry. She graduated from Newcastle University in 2008 with a Bachelor of Oral Health and has since worked in private practice and as dental educator at Sydney University.

Tabitha has a passion for community dentistry, preventative care and implant maintenance. She has volunteered clinically both within Australia and overseas and volunteers on a regular basis

for the Dental Hygienists Association of Australia (DHAA). Implant maintenance is her passion and Tabitha has travelled extensively overseas to obtain more knowledge on the subject including the Malo Clinic in Portugal. She is currently undertaking her Implant Maintenance certification in Washington DC, USA.

ADVANCED COURSE (clinician-on-clinician masterclass)

Speaker: Dr Chris Barker (BDS. DClinDent (Perio. FRACDS)

This workshop is the ideal platform for dental professionals wanting to perfect themselves. Participants will have an opportunity to follow the complete Guided Biofilm Therapy protocol step-by-step first on simulation models then clinically on one another in the clinic chair. Dental Professionals will learn to maximize efficiency and patient comfort.

Learn how to:

- Correctly utilize supra and sub gingival air polishing devices to eliminate biofilm prior to hard deposit removal
- Correctly apply ultrasonic instrumentation for optimal hard deposit removal

The ADVANCED course is limited to the first 6 participants per session to register and is only available to clinicians who have attended the BASIC course or a previous SDA course and are looking to advance their knowledge.

DATE:

Saturday 11th July 2020

TIME:

8:30am – 12:30pm (3.5 CPD) – morning session

1:30pm – 5:30pm (3.5 CPD) – afternoon session

LOCATION:

Proactive Perio

132 Kedron Brook Rd, Wilston QLD 4051

*Please see back page for specific conditions concerning Advanced course registration

Dr Chris Barker

Dr Barker graduated dental school with Honours at the University of Adelaide in 2004. He worked in government and private practice for a number of years before completing a Doctorate in Clinical Dentistry, specialising in Periodontology at Griffith University in 2014. Chris was awarded a grant from the Australian Periodontology Research Foundation for his doctoral research which was an investigation of bone and modifying factors of bone resorption and bone production.

He is an admitted fellow of the Royal Australasian College of Dental Surgeons and has completed the Long Surgical Course Certification from Implant Team International (ITI). Chris has been a clinical instructor at Griffith University. Chris is a member of the Australian Society of Periodontology (ASP), Queensland branch, the Australian and New Zealand Academy of Periodontists (ANZAP), International Team for Implantology (ITI), the Australian Osseointegration Society (AOS) and the Australian Dental Association (ADA).
