

Getting started with Digital Dentistry

1 CPD
HOUR

How to create a better patient
experience and increase your scope
of practice with the latest technologies

Presented by Dr Anthony Mak
& Dr Aodhan Docherty

Advancements in digital technologies is changing dental workflows and shifting the dental industry. Going digital today is much more than just taking an impression, digital can help improve patient experience, communication and case acceptance.

In this episode, Dr. Anthony Mak and Dr. Aodhan Docherty discuss their experience transitioning from an analogue to digital workflow, what is important when choosing an intra-oral scanner, and the possibilities with going digital.
