

SCHEIN TV EPISODE 11

Dual Wavelength Diode Laser Technologies

Presented by Prof Laurie Walsh

How to do your **B.E.S.T.**

Better. **E**asier. **S**impler **T**reatments.

BEFORE GINGIVECTOMY

4 WEEKS POST

Watch the Episode **LIVE** on Thursday 4th April 2019 at 7:30pm AEST
www.henryschein.com.au/tv

This presentation will discuss:

- How diode lasers work for surgical procedures, and why this is different from electrosurgery
- The selection of single or dual wavelengths for different procedures
- The range of additional procedures that are now possible
- Safe working protocols for the dental practice setting, for staff and patient safety
- The paperwork side - itemisation of treatments, and specific approvals for laser use
