

PERIO MASTERCLASS

Full day DHAA NSW CPD

September 9, Novotel Resort Coffs Harbour
Presenter: Dr Jeremy Vo

OVERVIEW

This masterclass is aimed at hygienists and interested dentists to discuss recent advances in periodontal therapy which have influenced our management of Periodontitis and Periimplant diseases. Clinical tips and protocols will be discussed which can improve healing and patient outcomes. There will be a workshop which will give participants an opportunity to trial air polishing devices on simulation models.

KEY TOPICS

- 🦷 Clinical treatment protocols – non-surgical and surgical
- 🦷 Modern advances with insights on air polishing and ultrasonic technologies for biofilm removal
- 🦷 Introduction to Guided Biofilm Therapy
- 🦷 How to best care for implants for your patients
- 🦷 Prevention and treatment of peri-implant diseases
- 🦷 How to correctly utilise ultrasonic and air polishing devices

Dr Jeremy Vo is a Specialist Periodontist. He obtained his BDS dental degree from the University of Adelaide and then went on to receive a Doctor of Clinical Dentistry in Periodontics from the University of Sydney. He has been awarded membership of the Royal Australasian College of Dental Surgeons as well as separate research grants in the fields of periodontology and craniofacial biology. Working in private practice in Sydney since 2009, Dr Vo has also been a visiting clinical demonstrator for the DMD program at the University of Sydney. He is a member of ANZAP and the International Team for Implantology.
