

supported by **BIOHORIZONS**[®]

BioHorizons is committed to developing evidence-based and scientifically proven products. This commitment started with the launch of the Maestro implant system in 1997 and remains in full force today with our most recent launches, the Tapered Short implant and Laser-Lok multi-unit abutments.

The focus of BioHorizons on science, innovation and service enables our customers to confidently use our comprehensive portfolio of dental implants, prosthetics, biologics products and digital solutions making BioHorizons one of the fastest growing companies in the dental industry.

BioHorizons, now part of Henry Schein, helps customers restore smiles in 90 countries throughout North America, Europe, South America, Asia, Africa and Australia.
