

The most important course you will ever take to improve your Diagnostic Skills!

Course Objectives:

- Learn how to treat cause instead of chasing symptoms
- Learn a reproducible SYSTEM for screening and triaging of structural injuries
- Learn how to identify and hand dual primary problems
- Know when to refer and who to refer to
- Learn how being the director of patient care gets you results in treatment
- Learn what to do when the patient is still symptomatic
- Understand the difference between Neural Reflex Testing and Kinesiology (Muscle) Testing and when to use one over the other

16 CPD
HOURS

Course includes:

- 2 Full Days of Lecture & Hands-On Instruction
- Instructional Video Access/Login, Step-by-Step Manual & Protocol Flowcharts

Directed by International Educator Dr Steven Olmos

D.D.S, DABCP, DABCDISM, DABDSM, DAIPM, FAAOP, FAACP, FICCMO, FADI, DIAO
Founder and Director, TMJ & Sleep Therapy Centres International

“ A Message from Dr Olmos

As doctors treating pain, sleep breathing disorders and other conditions, we are always looking for tools to assist us in elevating our diagnostic skills. In my 33 years of treating patients, the most reliable testing I have ever used is without questions, the patient's own neurology! Therefore, Motor Nerve Reflex Testing has been a staple in the diagnosis and treatment of orthopedic problems throughout our medical community as well as over 50 TMJ & Sleep Therapy Centres spanning 7 countries. This is the most exciting course I teach! Without Motor Nerve Reflex Testing, I could not practice at the level I do today. I look forward to sharing this diagnostic skill with you. ”
